## Day With the Bankers, the Merchants and the Brokers.

### Stock Market Showed Power of Resistance

Even Traditional Prejudices Against an Active Opening on Monday Proved of No Effect.

NEW YORK, Feb. 20.-The stock martet demonstrated again today in a strikis manner its power of resistance sainst adverse influences, such as would have worked decisively for a reaction in periods of past speculative activity. Even te traditional prejudice against an active the traditional prejudice against an active excising on Monday morning proved of no effect, although there was hesitation at a reaction after the atrong opening. The most obvious of the influences against the market was the rather discovering condition of the country's condition of the country's transportation discovered by the weekly transportation of the condition. These reconsists condition of the county's ransportation discovered by the weekly raiks with traffic officials. These reperied a condition of practical paralysis from storms and blockades on many lines East and West, and while progress was reported toward breaking the blockades, it was not likely that normal conditions would be restored for many weeks. A will further cut was made in the rates for export grain.

The gross carnings for the second week of February showed already quite clearing the effect of these induences. These were the causes of a halting and slug-shrespone to the first buoyant rise in

nion Pacific. The next demonstration centered in the The next demonstration centered in the polustrials, and it was not until late in the day that the railroad stocks came in the day that the railroad stocks came in the day that the railroad stocks came in the union Pacific and Southern Pacific Chatrio & Western and the United States Sted stocks, the total in which was run in quickly at the rate of 1900 to 19,650 shares in single blocks. All of the stocks connected with the Northern Securities merger or with the supposed plan of resignation of the stocks of the stock

is a securities itself adding several plats to its record price in the curb markets.

The heavy buying of United States Steel after a period of comprehensive dormancy, was attributed to banking interests near to the corporation and the credit given to this supposition induced other buying of the stock. Reports of negotiations for the merger of Southern iron companies grew more explicit and that group of stocks was strong in consequence. The taking over by the American Selling company of a mining corporation and as persistent assertions of a plan for comprehensive combination of lead interests explained the strength of another group of stocks.

Rumors of coming peace were received from abroad, and the continued decline in exchange marked the culmination of the foreign demand for our gold. Call moses, however, was rather firmer, and there was inclination among exchange bearse to take out loans, with the result that a loss was made in that department of the money market. The sports from Washington of a decision reached by the President not to press for railroad rate legislation at this session of Congress and to remit the intention of calling an extra session was a factor in the demand for stocks amongst profesional operators. The stock market took the late realizing pretty well, and the close was firm, close to the top level of the day.

Bonds were irregular. Total sales, par value \$6,65,000. United States bonds were unchanged on call. NEW YORK BONDS

New York Stock Market Letters.

Western Union . . 400 92% 93% Total sales for the day, 1555,560 shares.

James A. Pollock & Co., stock and grain brokers, 6 West Second South street, make public the following letters on New York James A. Police & Co., stock and grain brokers, 6 Wast Second South street, make public the following letters on New York stock market.

Logan & Bryan, New York, say: "All things considered, the market continues to reflect considerable strength. Selling pressure seems to have only temporary effect, market responding early when such pressure subsides. The undertone continues atrong and the action of the market seems to indicate that stocks are still a purchase on declines."

I. A. McIntyre & Co., New York, says: "The indications are for a continuance of today's activity during the session tomorrow, but we would be cautious and advise no overtrading and especially again overloading with too much stock on any sharp buiges. The undertone of the general market today was good throughout and the late trading was conspicuous for the strong support, especially in the steels. The absence of any material shifting of loans was an unexpected favorable and noteworthy incident. This kept the call manny rate from going above 2½ per cent."

Dick Bros. New York, says: "Market has been very active and strong although erratic. Union Pacific and Northern Securities made further substantial gains in the early trading, but later, when the general list strengthened, they reacted, under profit-timing. Baliroad stocks, like St. Paul, Resding, Southern Pacific, Missouri Pacific and Erle, all schowed noteworthy gains. In the late trading Amalgamated Copper became strong, Sensational advances were made by some of the specialities, particularly in the common. The close was an irregular one."

### Utah Fresh Eggs Sell at Thirty

Although Supply Is Not Plentiful, Price Is Reasonable-Few Dealers Have Oysters to Offer.

Thirty cents is the price at which retail dealers are now offering strictly fresh Utah eggs, this price having been put upon the hen fruit yesterday. Dealers but poultry-raisers seem afraid to hold

time, but yesterday the price was named at \$1.50.

A few, very few, nice young broilers were being offered by some handlers of poultry. They were small, tipping the scale at about one pound, and \$6 cents each was asked for them. Hens, turkeys and roosters were selling at the usual prices; that is, the prices which have been asked for several weeks by the retailers. The wholesale price of turkeys has been solvanced to \$22\frac{1}{2}\$ cents a pound.

Crabs are exceptionally fine just at this season, and the choicest that have graced the cases of the local dealers this year, both in size and quality, are to be had just now. Few of the dealers are prepared to supply even the smallest demands for oysters, some of them having entirely cleared up their stock Saturday and were unable to fill orders at all yesterday.

The wholesale price of dressed veal was yesterday changed just a trifle, and may now be had at 8 cents a pound. Other prices are the same that were quoted all last week.

Grain and Provisions.

Grain and Provisions.

CHICAGO, Feb. 20.—At the opening the wheat market showed some signs of firmness. Reports from the West formed the basis of strength in the wheat market. Statistics were of a bearish nature. World's shipments were considerably in excess of those a year ago, the amount of wheat on passage showing an increase of over 2,900,000 bushels. Immediately after the opening commission houses began to sell May and the price dropped to \$1.184, With shorts covering, the market gradually recovered. The highest point of the day in May was reached at \$1.194, During the last part of the session the market was affected by weakness at St. Louis and Minneapolis. Likelihood of an increase in movement resulting from miller weather was the main reason for lower prices in outside markets. The close was rather weak, with May off \$4.0% at \$1.18%. After touching \$1.01%, July close \$6 lower at \$1.03%.

A number of prominent commission buses were presistent sellers of core.

at \$1.00%.

A number of prominent commission houses were persistent sellers of corn throughout the entire session. May closed \$4.00% tower at \$43.00.

Outs were very quiet. May closed unchanged at 30%.

Provisions were a trifle easier, owing to liberal receipts of live hogs. May pork close 5.07% lower; lard and ribs were each off a shade.

DR. KIRKWOOD,

DENTIST. 50 EAST THIRD SOUTH. NOTICE TO WATER USERS.

State Engineer's office, Sait Lake City, Utah, February 2, 1905.

Notice is hereby given that James J. Chambers, whose postoffice address is 350 Brondway. New York City, New York, has made application in accordance with the requirements of chapter 100, Seession Laws of Utah, 1903, to apropriate thirty (30) second-feet of the water flowing in Big Cottonwood creek, Sait Lake county, Utah. Said water is to be diverted by means of a dam and a pipe at a point which is immediately below where the tail race of the Maxfield Mining company's power plant has its confluence with said Big Cottonwood creek, which point hears south 62 degrees 50 minutes west, 7620 feet distant from the northwest corner of section 18, township 2 south, range 3 east. Sait Lake base and meridian, from where the water will be conveyed for a distance of about 25,000 feet and there be used from January 1 to December 31 inclusive of each year, for developing power for electric lighting and to propel machinery in Sait Lake county. After having been so diverted and used the water will be returned to the natural channel of Big Cottonwood creek at a point which bears south 67 degrees 25 minutes west, 23,820 feet distant from the northwest corner of section 18, township 2 south, range 3 east, Sait Lake base and meridian.

All protests against the granting of said application, stating the reasons therefor, must be made by affidavit in duplicate, and filed in this office within thirty (30) days after the completion of the publication of this notice.

Date of first publication February 4, date of completion of publication March 5.

NOTICE TO WATER USERS.

State Engineer's office, Sait Lake City, Urah, February 2, 1905.

Notice is hereby given that James J. Chambers, whose postoffice address is 250 Brondway, New York City, New York, has made application in accordance with the requirements of chapter 100, Session Laws of Utah, 1903, to appropriate the equivalent of thirty (20) second-feet of water flowing for a period of thirty days from Big Cottonwood creek, Sait Lake county, Utah Said water will be stored during the flood and winter seasons in a reservoir made by constructing an earthen dam in the natural channel of Big Cottonwood creek just below "Mill D," at a point which bears south 56 degrees west, 1250 feet distant from the southwest corner of section 3, township 2 south, range 3 east, Sait Lake base and meridian. The water will be subsequently released, conveved through a pine for a distance of 35,000 feet and used for developing power for electric lighting and to propel machinery in Sait Lake county. After having been so used the water will be returned to the natural channel of Big Cottonwood creek at a point which bears south 5° degrees 23 minutes west, 2,820 feet distant from the northwest corner of section 18, township 2 south 1° degrees 25 minutes west, 2,820 feet distant from the northwest corner of section 18, township 2 south 1° degrees 25 minutes west, 2,820 feet distant from the northwest corner of section 18, township 2 south 1° degrees 25 minutes west, 2,820 feet distant from the northwest corner of section 18, township 2 south 1° degrees 25 minutes west, 2,820 feet distant from the northwest corner of section 18, township 2 south 1° degrees 25 minutes west, 2,820 feet distant from the northwest corner of section 18, township 2 south 1° degrees 25 minutes west, 2,820 feet distant from the northwest corner of section 18, township 2 south 1° degrees 25 minutes west, 2,820 feet distant from the northwest corner of section 18, township 2 south 1° degrees 25 minutes west, 2,820 feet distant from the northwest corner of section 18, township 2 south 1

NOTICE TO WATER USERS.

State Engineer's office, Sait Lake City, Utah, February 2 1966.

Notice is hereby given that James J. Chambers, whose postoffice address is 359 Broadway, New York City, New York, has made application in accordance with the requirements of chapter 160, Session Laws of Utah, 1803, to appropriate ten (10) second-feet of the water flowing in Little Cottonwood creek, Sait Lake county, Utah. Said water is to be diverted by means of a dam and a pipe at a point which bears south 83 degrees 6 minutes east, 17,562 feet distant from the southwest corner of the northwest quarter of section 7, township 3 south, range 2 east, Sait Lake base and meridian, from where the water will be conveyed for a distance of about 13,000 feet and there be used from January 1 to December 31 inclusive of each year, for developing power for electric lighting and to propel machinery in Sait Lake county. After having been so diverted and used, the water will be returned to the natural channel of Little Cottonwood creek at a point near the west line of section 8, township 3 south, range 2 east, Sait Lake base and meridian.

All protests against the grantlying said

range 2 cast, Salt Leke base and meridian.

All protests against the granting of said
application, stating the reasons therefor,
must be made by affidavit in duplicate,
